

Anton Antiukhov

MANUAL QA ENGINEER

Belarus | +375298141740 | antjuhov@gmail.com | telegram: @Anton_Antjuhov

PROFESSIONAL SUMMARY

QA Engineer with 1 year of commercial experience in the iGaming domain. Solid understanding of the software development life cycle (SDLC) and strong skills in requirements analysis to ensure product quality. Hands-on experience with client-server web applications and executing functional, regression, and cross-browser testing.

Proficient in using Postman for REST API testing (including collections, variables, and environments), and skilled in working with Apache Kafka to validate, send, and inspect messages. Detail-oriented in UI/UX testing and capable of developing clear and effective test cases, checklists, and test plans. Confident in reporting and tracking bugs in Jira, and collaborating closely with developers, analysts, and managers. Focused on delivering results and continuously growing as a QA professional.

KEY SKILLS

Testing & Quality Assurance: Manual Testing, Test Case Design, Execution, & Reporting, Functional/Regression/API Testing

Tools & Technologies: Jira, Git, Devtools, Postman, Swagger, Kafka, SQL, Client/Server Architecture, Confluence, Figma
